

I am an ambitious, hardworking, and quick-learning student seeking an exciting and challenging internship opportunity. As a member of the National Honor Society, I completed all honors and AP classes in high school. I am currently a Computer Science major at Ithaca College, maintaining a GPA of 3.63 as I enter my junior year.

In addition to my academic achievements, I am also a member of the varsity men's soccer team at Ithaca College, which is a significant commitment, occupying nearly as much time as a full-time job throughout the year. While this has made it more difficult to engage in outside projects or join clubs like some other candidates, I believe my experience as a student-athlete has helped me develop strong time-management skills and a work ethic that drives my success.

I am confident that the skills I have developed through both my academics and athletic experiences will enable me to perform at a high level in an internship setting. I am excited for the opportunity to learn and begin building my career this summer, and I would love to demonstrate my abilities through hands-on work.

Thank you for considering my application. I look forward to the possibility of contributing to your team.

Sincerely,
Nathan Waychoff
